About Us —

YETI IS A VIDEO PRODUCTION COMPANY BASED IN LUXEMBURG

We specialize in creating advertising and corporate videos. For the past four years, we have been daily working on projects for prestigious clients such as Proximus, L'Oréal, Hugo Boss, BIL, and the City of Luxembourg.

What sets us apart is our unwavering passion for our craft. We are a team of creatives driven by the desire to produce exceptional work.

Effective communication and quick responses are at the core of our approach because we understand their true value !

About Us —

WE CREATE VIDEOS PEOPLE LIKE.

- **Passion-Driven Creativity:**
Our team is fueled by passion, bringing creativity to every project we undertake.
- **Cinematic Excellence:**
We specialize in crafting visually stunning videos, ensuring each production is executed with cinematic flair.
- **Flexibility and Speed:**
Adaptable and swift, we work with your timeline, delivering high-quality results efficiently.
- **Proven Track Record:**
Over the past four years, we've collaborated with renowned global brands such as L'Oréal, Hugo Boss, and Proximus, consistently exceeding expectations.
- **Client-Centric Approach:**
Your vision is our priority. We listen, strategize, and execute, ensuring your project reflects your unique brand identity and goals.

About Us

WHERE TECHNIC MEET CINEMATIC

Step into Yeti Studios, where creativity meets cutting-edge technology.

With state-of-the-art equipment including the Sony FX cinema camera, RED camera, and professional sound gear, we're equipped to bring your vision to life with unparalleled precision and clarity.

Our technical prowess extends beyond mere recording; we seamlessly integrate Hollywood-grade VFX to create jaw-dropping visuals.

But it's not just about the tech – at our core, we're storytellers, weaving narratives that inspire and captivate audiences, ensuring your message resonates long after the screen fades to black.

Our Work —

DISCOVER VIETNAM

Celebrating the authenticity of Vietnam, our latest video captivates viewers with a raw and genuine portrayal of this captivating destination. Despite navigating gray weather conditions, we skillfully crafted a powerful narrative that highlights the country's unique charm and allure.

To ensure adaptability in every scenario, we opted for a lightweight travel approach, enabling us to seamlessly pivot and capture the essence of Vietnam from diverse perspectives. Additionally, our meticulous attention to sound design and expert drone work adds depth and immersion, further enhancing the viewer's experience.

This video is really appreciated on youtube with more than 100k views

Our Work —

BANKING VIDEO - IT MIGRATION

This project showcases a significant milestone for one of our client – a pivotal IT migration.

This captivating video takes viewers on a journey through Europe, where we meticulously filmed the dedicated crews involved in this transformative process. Throughout production, we prioritized adhering to the client's branded guidelines, ensuring every frame reflected their identity and message.

Despite the challenges of tight deadlines and logistical complexities, our team's dedication shone through, resulting in a video that resonated deeply with our client and their audience alike. We're thrilled by the positive reception it has garnered, underscoring the importance and impact of our work

Our Work —

OVRRING - A VR COMMERCIAL

We create a promotional video for a virtual reality product that is revolutionizing the VR landscape. Our approach was to infuse humor into the commercial, while showcasing the product's immersive capabilities.

In just 20 seconds, we integrated various environments, each designed to engage and captivate viewers.

This project stands as a testament to our commitment to innovation and creativity, highlighting our capability to deliver compelling content that leaves a lasting impression.

BUDGET TO DEFINE

PROJECT START : APRIL 2024

RENDER : : Vidéo 4K 16:9 - + Social network adaptation

To establish a clear and transparent budget for our video projects, we follow a comprehensive process that considers various factors across pre-production, production, and post-production stages.

By meticulously outlining each stage of the project and considering factors such as video length, complexity, and production techniques, we ensure transparency and accuracy in budgeting. This approach enables us to provide clients with comprehensive estimates that align with their project requirements and budget constraints.

PRE PRODUCTION:

- **Defining the Message, Vision, and Concept:**
 - We engage in detailed discussions to understand the client's objectives and vision for the video.
- **Script Writing:**
 - Our team crafts a compelling script that effectively communicates the desired message.
- **Storyboard:**
 - Visualizing the script through a storyboard helps in planning the visual narrative.
- **Defining and Scheduling Production Days:**
 - We determine the production schedule based on the complexity of the project and logistical considerations.
- **Logistic Organization:**
 - Securing filming locations, permits, and coordinating transportation and accommodation for the crew are essential steps.

BUDGET

PROJECT START : APRIL 2024

RENDER : : Vidéo 4K 16:9 - + Social network adaptation

PRODUCTION:

- **Gear Used:**
 - We select the appropriate equipment based on technical requirements and creative objectives.
- **Crew Needed:**
 - Identifying the necessary crew members, including director, cinematographer, sound technician, etc., ensures smooth production.
- **Shooting Days:**
 - The number of shooting days is determined based on the script and production schedule.

POST PRODUCTION:

- **Editing:**
 - We define the number of days required for editing the film to achieve the desired outcome.
- **VFX (Visual Effects):**
 - Incorporating visual effects adds depth and enhances the overall quality of the video.
- **Sound Design:**
 - Meticulous sound design ensures a captivating auditory experience for the audience.
- **Render:**
 - Rendering involves processing and finalizing the visual elements of the video.
- **Music and License:**
 - Every project includes music selection and licensing to complement the narrative and comply with copyright regulations.
